Systems

FEATURES & BENEFITS OF FIG PAPER & DISPENSERS

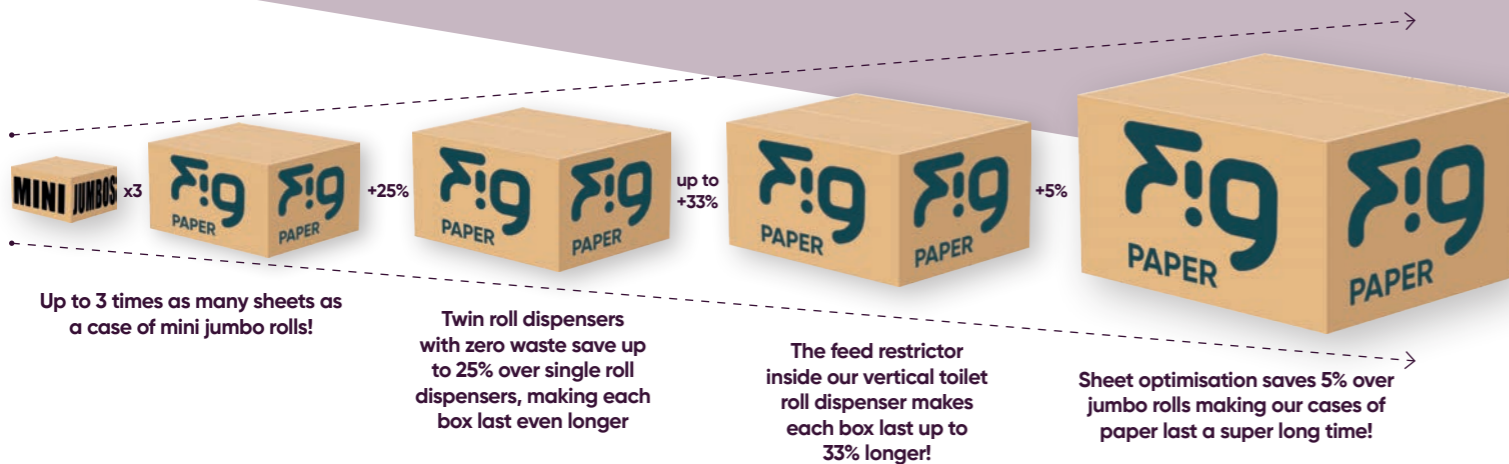

- ✓ We cram a huge amount of paper into each box with up to 3 times as many sheets as a case of mini jumbo rolls
- ✓ This means one case of our paper will last up to 3 times as long as mini jumbo's, and on top of that...
- ✓ We have 3 features that can further increase the longevity of a box of FIG paper from lasting as long as 3 cases of mini jumbo's up to 6 cases
- ✓ Feed restrictor inside our toilet roll dispenser extends the life of one box by up to 25% by preventing roll spinning and reducing usage
- ✓ Twin roll dispensers can further extend the life of each box of paper by up to 33% over single roll dispensers because all of the rolls are used, not thrown away when they get low.
- ✓ Our 11 cm sheet length means more frequent perforations so the user can break off where they want to, not have to take another 30 cm of paper to get to the next perforation. This extends the life of each box of FIG paper by another 5%

SUGARCANE PAPER FEATURES & BENEFITS

- ✓ Sugarcane is made from the left-over plant after the sugar has been extracted for the food industry
- ✓ Being a by-product makes it even more sustainable than bamboo
- ✓ It's much softer than bamboo due to the short & delicate fibres of the sugarcane plant
- ✓ It breaks down in 4 seconds when flushed, helping to prevent blocked drains
- ✓ It is harvested every 11 months whereas trees take 30 years
- ✓ We cram more paper into smaller cartons to reduce the carbon footprint for deliveries
- ✓ Sugarcane has a 64% lower carbon footprint than recycled paper

ECOMATIC CLASSIC TWIN TOILET ROLL DISPENSER

With zero stub-roll waste, this dispenser has a feed restrictor inside to slow down the rolls and reduce usage meaning that each roll lasts even longer so your monthly costs are lower.

MANUAL & AUTO SOAP DISPENSERS

With our ingenious dosage switch inside the dispenser, you can get up to 2,800 doses from one refill, making this the lowest-cost foam soap on the market!

FOAMING SOAP & SANITISER

Probably the lowest cost-in-use soap cartridge in the UK! All 3 pouches can be used in all six of our soap dispensers including the White, Black & stainless steel in the manual or auto dispensers. This means you can have the same pouches in the back of house dispensers as you do in your front of house dispensers.

2-PLY CONVENTIONAL TOILET ROLL

Our lowest 'price per roll' product in the range, this is designed for people that want affordable sustainability. This product still gives you the softness of sugarcane, the performance with our 4-second break down when flushed and being probably the most sustainable by-product toilet roll in the world, this is real value for money!

FIGC002CTR
2-ply Conventional Toilet Roll

ULTRA-SOFT 3-PLY TOILET ROLL

This 3-ply ultra-soft toilet roll is our best-selling product in this range, fully embossed and designed to be used on any toilet roll holder with 170 sheets/roll and 40 rolls per case. Comes with all the usual benefits of sugarcane; fantastic quality, great performance, superior sustainability and a very competitive price! All in all, probably the best toilet roll in the world!
